

NT 170

THERMAL INKJET PRINTER

Product Parameters

Product name:	Thermal inkjet printer NT 170
Printing distance	2-5mm
Printing accuracy	300DPI
Counting	1-15 digits
Ink properties	Dry ,Oily, Water-based
Printing speed	30m/min
Cartridge capacity	47 ml
Printing height	12. 7mm/25.4mm
Printing type	Text, barcode , picture, QR code. . .
Printing material	Sheets, cartons, pipes, cables, metals, plastics, etc.
Ink color	Black (default), white, red, yellow, blue, green, invisible. UV (food grade ink in various colors)

TECHNICAL SPECIFICATIONS

Print height	2-12.7mm
Cartridge capacity	42CC
Printing accuracy	150dpi, 300dpi, 600dpi
Printing distance	2-5mm
Printing speed	40m/min
Screen	4.3" capacitive screen/480×272dpi
Storage information	Unlimited information storage
Counting number	1-15 digits
Printing barcode	Barcode, QR code, variable QR code
Printing content	Date, count, batch number, serial
Font library	Built-in national standard font library
Ink property	dry, water-based, oil-based
Quick Dry Ink Colors	Black, red, blue, green, yellow, orange, white, invisible ink
Oily ink color	Black, red, blue, green, yellow,
Operating language	Chinese, English, Russian, Arabic,
External interface	Charging port, 3.5mm sensor
Use environment	Temperature: 0°C to 40°C; Humidity:
Power supply	DC7.4v-0.8A lithium battery
Battery capacity	1500-2500mAh
Material	ABS housing
Specification	Dimensions: 135mm×50mm×220mm

Packing carton

Medicine

Furniture and wood

Food packaging

PET plastics
